COVID PROTOCOL

SLL is continuing with our Covid-19 protocol from last season. Here are the guidelines we have in place. Please be respectful of others at SLL!

- If anyone has had contact with a positive Covid case (home, School, work, etc) they are not permitted at our complex for 14 days. If you are in the same household, you are considered a close contact even if you tried to be separated.
- If a player, coach or family member is already on quarantine for school or work they are not permitted at the SLL complex.
- If someone tests positive for Covid, they are not permitted at our complex for at least 10 days and must be symptom-free for 48 hours.
- Anyone with Covid-related symptoms in the last 48 hours may not be at the complex.
- A Covid questionnaire must be completed for everyone attending a team event (practice, game, party). Anyone not answering the questions honestly will face consequences that will be decided by the board of directors.
- If anyone develops or exhibits symptoms while at the complex, they will be asked to leave immediately.
- If a team has had contact with an individual (player, coach, etc) in the 48 hours before they test positive (or exhibit symptoms that precede the positive test), the entire team will be quarantined from the complex for 14 days. We will make an effort to reschedule any games that have to be missed.
- If anyone enters the complex knowing they are positive or under quarantine and disregards the guidelines stated above, there will be consequences decided by the board.
- The board of directors has the final say in clearing an individual in question to enter the complex.
